The Two-State Solution for the Palestinian-Israeli Conflict: Is it Still Viable?

In the early 1990's a number of international conditions and events have taken place that formed a suitable environment for the rise of the notion of the two-state solution as the preferred solution for the Palestinian-Israeli conflict that has been raging for decades. As things stand on the ground nowadays, voices have started to question that notion and, instead, started to entertain other possibilities. This presentation looks at the feasibility of this solution in light of the current facts-on-the-ground in the Holy Land.

Hamed Qawasmeh was born in Kuwait where he grew up before moving to Dubai in the United Arab Emirates. Mr. Qawasmeh holds a Master Degree in Political Science from Idaho State University (USA) as well as an International MBA from Bar Ilan University (Israel). Married with 5 kids and the 6th is on the way. He currently works as the director of the grassroots organization, the Hebron International Resources Network (HIRN).
